Electric Fireplace Insert

ZCR INSERT

Electric Fireplace Insert

The ZCR series is designed as a replacement insert for existing wood burning fireplaces and provides a beautiful and economical substitute for a gas log set or gas insert. Just slide into your existing masonry or zero clearance fireplace and plug in! This model comes standard with a decorative trim piece and realistic LED Canyon Juniper Logs. The combination of its glowing realism, ease of installation and low cost of operation make this fireplace a perfect addition to the home.

REMOTE CONTROL

Separate controls for on/off variable heat and variable flame.
